The World's Most Innovative Au Pair Program

An au pair is a young adult, between the ages of 18 and 26, who travels to the United States on a J-1 Visitor Exchange Visa to provide childcare in exchange for the experience to live with and become part of an American family. Au pairs provide their host families with childcare, up to 45 hours a week, and help with child related household duties, transporting children to school and activities.

Agent Au Pair, a U.S. Department of State Designated Au Pair Program, promotes educational and cultural exchange between nations through our inter-cultural au pair program. Our program provides American families with live-in childcare and allows our au pairs to experience American education, life, and culture in an affordable international education program.

Agent Au Pair has created a unique value proposition for au pairs which is based upon providing them with greater long-term career and educational value than any other organization in the field. Read this brochure to learn why Agent Au Pair is The World's Most Innovative Au Pair Program.
